

**award-winning
AI-driven skilling
platform for Bajaj
Allianz General
Insurance**

about the customer

Caringly yours

Founded in 2001, Bajaj Allianz General Insurance is a private general insurance company in India with 7000+ employees.

challenges

disprz solution

need to create upskilling programmes and build a continuous learning culture in the organization

they wanted to let learners explore skills based on their proficiency and create personalized learning pathways

learning needed to be personalized to the job, and available in the flow of work to perform better

personalized learning journeys and milestones set for each employee of Bajaj Allianz General Insurance

bespoke collection of courses with AI-driven recommendations for the right modules and artefacts based on employee interests

onboarding and training based on job roles, for ex: behavioral, technical, and functional training for motor insurance workers

impact

won the **Celent Model Insurer Award 2021** for Skillsity learning platform

one stop learning solution for more than 7000 users

enables faster decisions through employee scoreboards and evaluation metrics
